ABOUT US

COMPANY INTRODUCTION

MK Aluminum
Shanghai MK Aluminum Group
JS MKDR Automation
MK Windows and Doors
MK Solar Mounting Products

Dongtai factory, occupying more than 210 hectares, includes 8 production buildings, 2 office buildings, 1 apartment building, which is more than 200,000 square meters building area in total. Since 2006 MK has been specialized in aluminium extrusion design and production. MK aluminum profiles are widely applied in modular assembly products, modular conveyors, machine frames, fences, workstations, linear motion products, stair and platform products, commercial complex, resort hotel, apartment building, villa and office building, solar frames, solar racking products across the world. Annual output of aluminum profiles is over 60,000 tons.

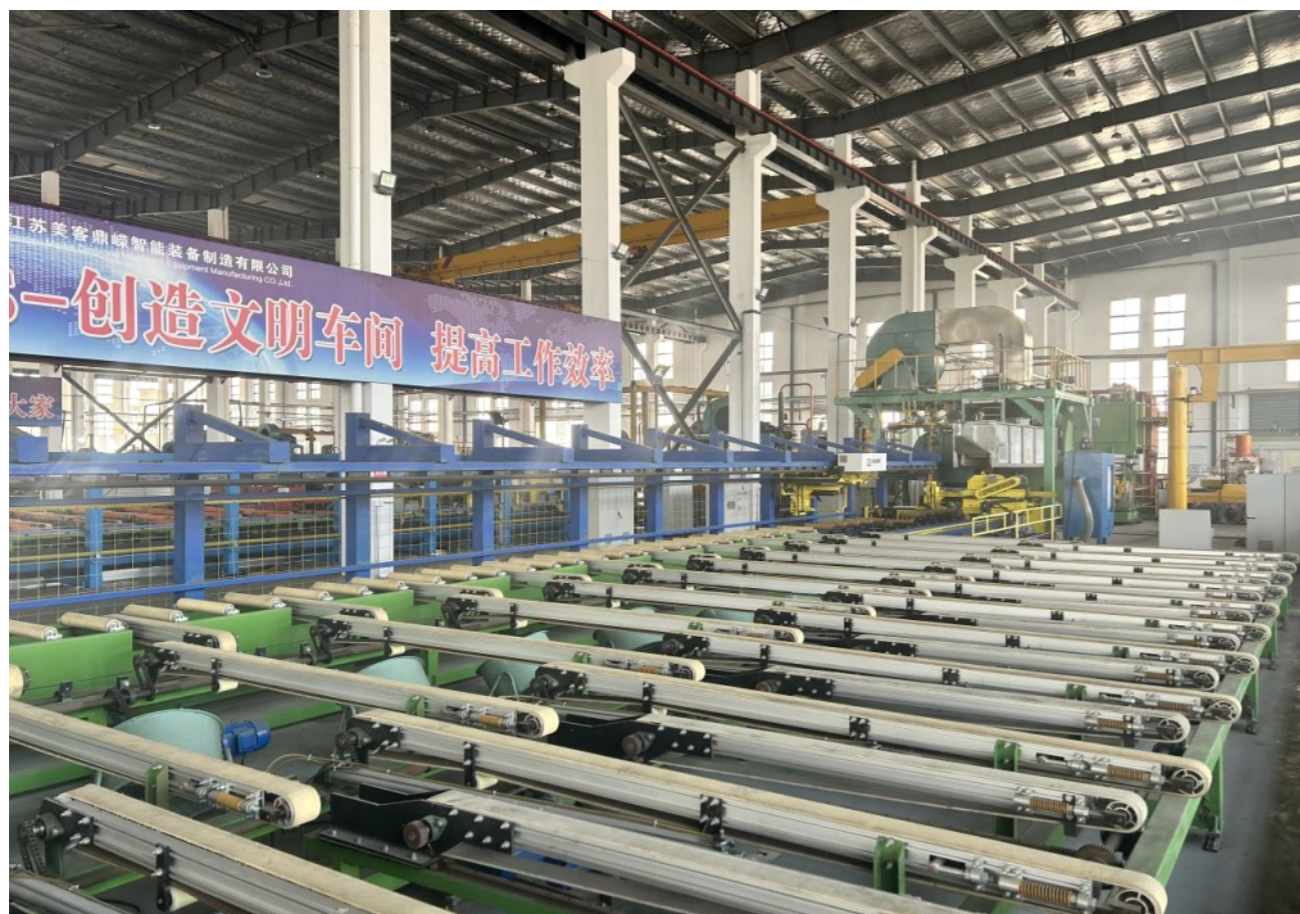

MK Aluminum Extrusion Factory:

From aluminum billet to aluminum profile

- Automated aluminum extrusion production lines, include 700 tonnes, 1000 tonnes, 1450 tonnes, 1850 tonnes and 3600 tonnes.
- Max extrusion circular diameter: up to 400 millimeters
- Provide aluminum alloy 6063, 6005, 6061
- Temper: T5 or T6
- Several sets aging ovens to suit different hardness
- 2 sets vertical sandblast facilities
- More than thousands extrusion die available

From extrusion design to production we make sure every process is under control. Every piece MK aluminum profile meets national standard.

MK Surface treatment factory:

- Fully automated anodize production line
- Provide Natural anodize, Black anodize, and Electrophoresis
- Automated vertical powder coating production equipments
- Provide fluorine-carbon or powder coat with durable weather resistance up to 15 years
- Wood grain heat transfer printing production lines
- Capable of meeting various colors demands.

Advanced powder coat production facility, premium fluorine-carbon powder and skilled technician make perfect powder coat aluminum profiles.

MK Machining & dust free assembly factory

MK Machining & dust free assembly factory

MK factory is equipped with advanced automated machining facilities, cnc cutting centers, cnc drilling, milling machines, automated tapping machines, cnc laser cutting machines, laser welding machines, cnc bending machines. MK team consists of lots of professional designers, skilled production workers and quality control technicians. We have very strict standard on each production process part. Our main products are t slot aluminum profiles, t slot fasteners, t slot connecting parts, t slot accessories, machine frames, workstations, fences, stair and platform products, solar racking products, conveyors and lifts. array inline, cell inline, cf inline, oven, HP, CP for flat panel display factory.

MK windows & doors factory

Our factory is equipped with advanced machining units, cnc cutting centers, automatic milling machines, end milling machines, corner combining machines, modular assembly units. MK team consists of many professional designers, skilled production workers and quality control technicians. We have very strict standard on each production process part. Over 300000 square meters windows and doors are made by MK annually. Main products are thermal break windows and doors, curtain walls, aluminum facade panels, fences, aluminum shutters, aluminum balustrades, aluminum honeycomb panels and outdoor furniture.

MK aluminum doors and windows have been showing excellent performance parameters under various weather conditions.

Wind pressure resistance performance: level 6 and above

Air tightness: level 6 and above

Water tightness: level 4 and above

Thermal insulation performance: level 6 and above

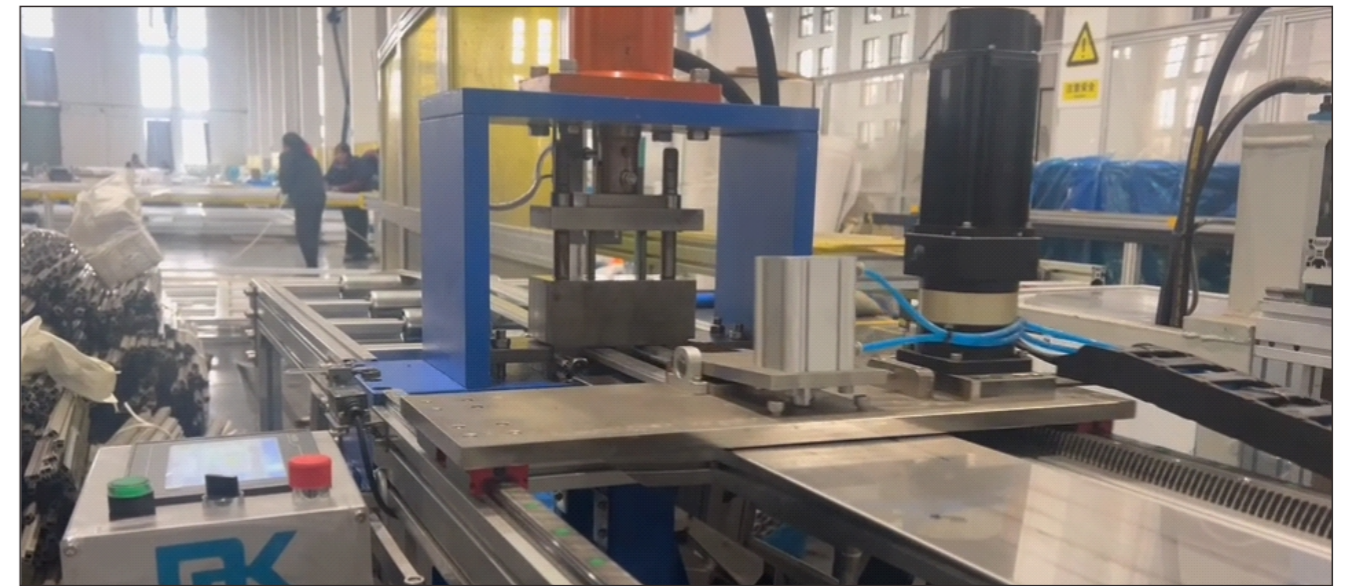

Sound insulation performance: level 4 and above

What we after is to provide good quality window and door products at competitive price.

More than hundreds projects across home and abroad. Export to more than 20 countries

MK is committed to provide better quality, better price windows and doors.

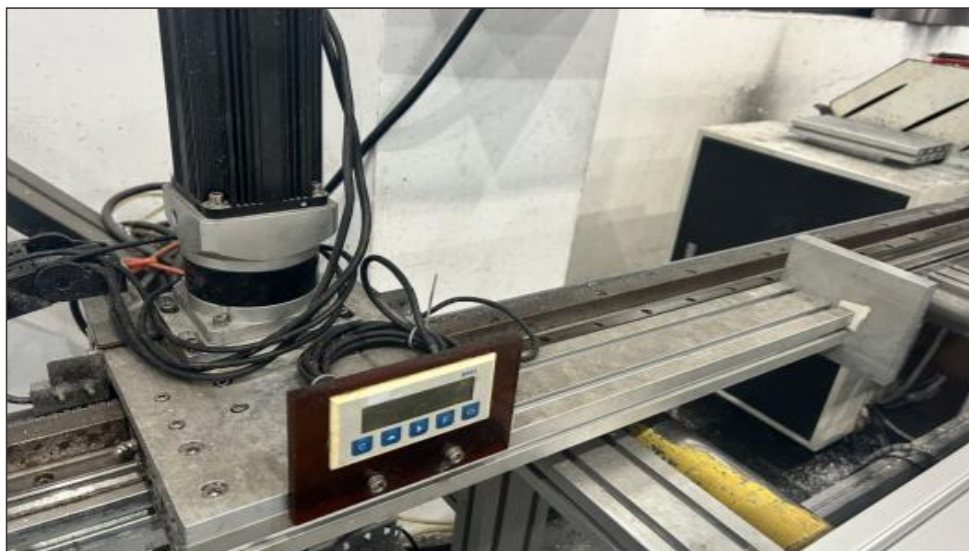

CAO 3292

MK Solar Frames and Rackings Factory

Our factory is equipped with advanced automated machining units, cnc cutting centers, cnc milling machines, automated punching equipments, punching plus cutting machines for solar clamps production, cutting, punching plus corner riveting equipments for solar frames production, automated drilling, tapping machines for solar nuts production. MK team consists of many professional designers, skilled production workers and quality control technicians. We have very strict standard on each production process part. Over 6000 tons solar mounting frames are made by MK annually. Main products are solar frames, solar rails, solar clamps, solar brackets, solar nuts, solar mounting frames for both commercial building and residential house, roof, ground, carport application. What we after is to provide good quality solar aluminum products at very competitive price. More than hundreds projects across home and abroad. Export to more than 20 countries. MK is committed to provide better quality, better price solar mounting products.

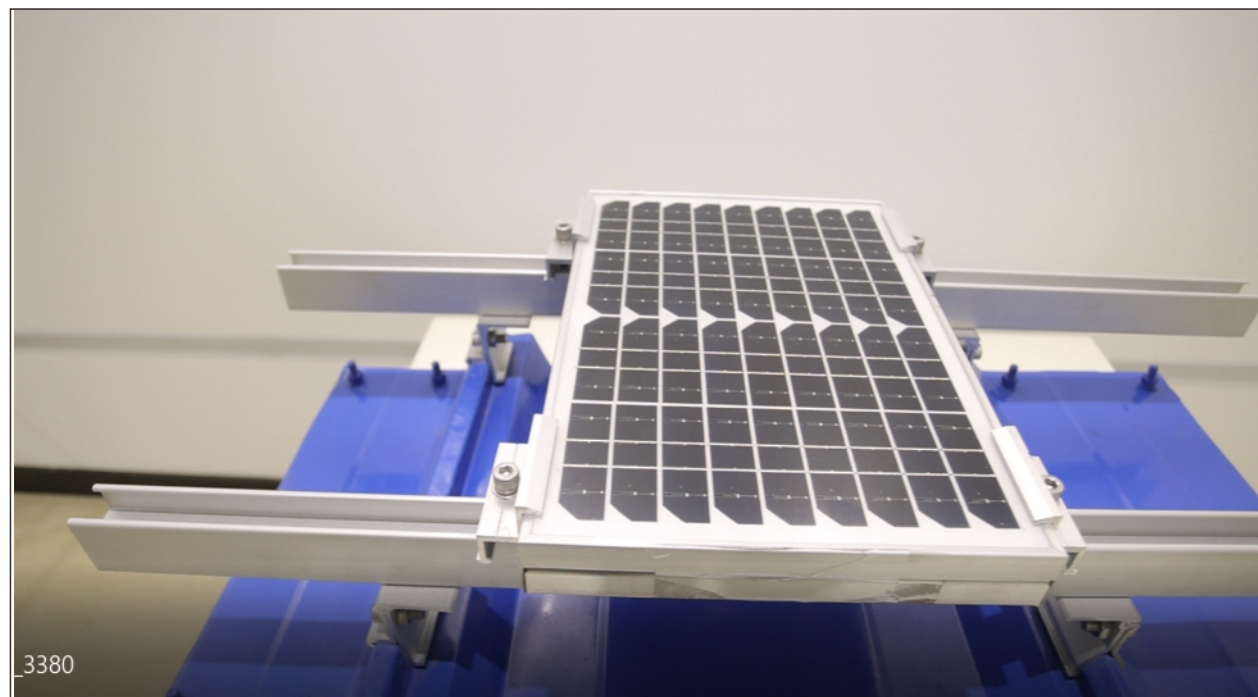

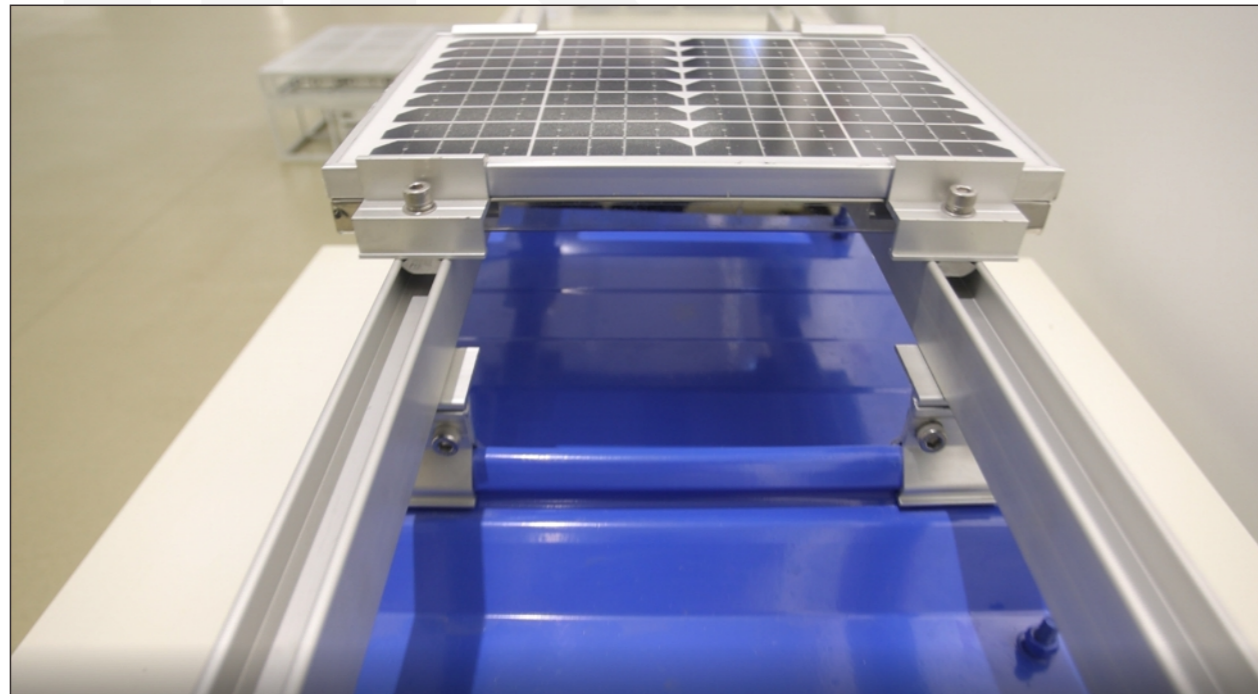

Rails Automated Punching Machine

Solar Nuts Automated drilling tapping machine

MK is your reliable partner in aluminum field wherever you are or whatever you after.

MK We make it happen.
